Professional Summary

Computer Science Engineering student with strong foundations in software development, cybersecurity, frontend development, and analytical problem-solving. Experienced in developing web applications, fraud detection systems, plagiarism analysis tools, and scalable software solutions through projects and industry simulations.

Technical Skills

Languages	C, C++, Python, Java, JavaScript, HTML, CSS
Core CS	Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks
Web Development	Frontend Development, Responsive UI Design, GitHub Pages
Cybersecurity & Data	Fraud Detection, Risk Modeling, Probability Analysis
Tools	Git, GitHub, Linux, AWS (Basic), UML, ER Diagrams

Projects

Personal Finance Tracker – Built a web app to track expenses with category-based financial insights and budgeting support.

Plagiarism Checker – Developed a JavaScript-based plagiarism analysis tool to identify AI-influenced or duplicated text efficiently.

Credit Card Fraud Detection System – Created a machine learning-based fraud detection system using Python and Jupyter Notebook.

Instagram Clone – Designed a basic Instagram-style frontend clone using HTML and CSS.

Interior Designing Website – Created a responsive frontend website reflecting modern UI/UX practices.

Portfolio Website – Built and deployed a personal portfolio website using GitHub Pages.

Virtual Experience / Job Simulations

J.P. Morgan Quantitative Research Job Simulation – Analyzed loan datasets and estimated probability of default using analytical models.

Walmart USA Advanced Software Engineering Simulation – Implemented custom heap structures and designed UML/ER models in Java.

AWS Solutions Architecture Job Simulation – Designed scalable cloud infrastructure using AWS Elastic Beanstalk.

Tata Cybersecurity Analyst Job Simulation – Applied IAM concepts and cybersecurity best practices in enterprise scenarios.

JPMorgan Chase Software Engineering Job Simulation – Completed software engineering simulation tasks involving development workflows.
